Election Costs

Cost of Participating in an Election RCW 29A.04.410

Every city, town and taxing district is liable for its proportionate share of election costs. Special election costs are borne by the city, town or district concerned. Pierce County will either transfer funds or bill the district directly for these costs.

The State Auditor's Office has established uniform procedures for allocating election costs. Election costs are allocated to each jurisdiction based upon its registered voter population as a percentage of the total registered voter population of all participating jurisdictions in that election.

Election costs vary from one election to the next depending on a variety of factors. However, the number of participating jurisdictions and their respective size is the primary variable impacting what the costs will be for the individual jurisdictions. For example, an election shared by ten (10) jurisdictions will likely cost more per voter than an election with 75 jurisdictions.

If a mandatory recount is required for a candidate in a jurisdiction, the costs of the recount are billed as a direct cost to the jurisdiction.

Special Elections administered in February and April are often shared by a smaller number of jurisdictions, thus the proportional share is often greater, and in some cases may be 100% of the cost (single jurisdiction election).

In deciding when to place a measure on the ballot, cost is a significant factor, but it is not the only factor that contributes to the decision. A specific cost or quote cannot be provided as the cost allocation is dependent upon the number of jurisdictions and

registered voters participating in the election. Estimates will be based on a reasonable range, taking into account historical information and specific known information about a particular election date.

Voters' Pamphlet Cost RCW 29A.32.270

The cost of a local voters' pamphlet shall be considered an election cost to those local jurisdictions included in the pamphlet and shall be prorated in the same manner as election costs.

Voters' Pamphlet costs are captured separately and are allocated to participating jurisdictions based on the number of registered voters.

Publishing a voters' pamphlet

Pierce County publishes an Official Local Voters' Pamphlet for all elections. It is available in printed format and on our website. Distribution of this pamphlet will precede the first mailing of ballots for each election. Pamphlets are either mailed to all registered voter households or to all households (saturation). In Special Elections, pamphlets are typically mailed to all registered voter households. In County-wide Primary and General Elections, pamphlets are mailed to all households in Pierce County.

The state publishes a pamphlet prior to the General Election. State propositions and candidates for state and federal offices appear in this publication. Local offices and local measures appear in the Pierce County Pamphlet.

Resolution Submittal Process **RCW 29A.04.330**

Resolutions/ordinances calling for an election by a district shall be submitted on or before the resolution deadline as established by state law. Resolutions calling for a special election in February or April must be submitted at least 45 days prior to the election date. Resolutions calling for an election in conjunction with the primary or general election must be submitted by the established deadlines for each election. See page 11 for resolution cut-off dates.

A **Mandatory Resolution Cover Sheet** must be completed and accompany each resolution submitted. This completed cover sheet will contain important contact information our office needs. This form can be found on our website at:

piercecountywa.org/elections.
(see sample on next page)

Upon receipt of the resolution an acknowledgment letter will be mailed to the District contact and the resolution will be posted on the Auditor's web page.

How to submit a resolution

In order to place a measure on the ballot an original signed resolution or a certified copy of the resolution, must be submitted to the Pierce County Elections Division by the applicable deadline. Please contact Dave Heinemann at 253-798-2162 with any questions.

Ballot Titles **RCW 29A.36.071**

Ballot titles for local measures consist of the following elements not to exceed 75 words:

- Identification of the legislative body and a statement of the subject matter
- A concise description of the measure
- A question

Resolutions submitted by districts which need a ballot title prepared by the Pierce County Prosecuting Attorney will be forwarded to the Prosecuting Attorney's Office.

Upon receipt of the final official ballot title from the Prosecuting Attorney's office, the Elections Division will notify the District contact person via email or fax. The final ballot title will be posted to the Auditor's website.

Requesting a copy of the ballot title **RCW 29A.36.080**

Requests shall be in writing and directed to the Pierce County Auditor at 2501 S 35th St., Suite C, Tacoma, WA 98409. Requests shall be made for a specific election and a specific issue. Blanket requests for multiple/all elections or multiple/all issues will not be honored.

Ballot Title Appeal **RCW 29A.36.090**

Within ten days from the time of the filing of the final ballot title, not including weekends and legal holidays, any person who is dissatisfied with the ballot title may appeal to the superior court of the county where the question is to appear.

Length and other specifications

Explanatory statements must be 200 words or less, in block paragraph form. Use italics only to emphasize specific words or statements. Any other formatting submitted will be changed to appear in italics.

How to submit the explanatory statement

Statements must be submitted by email or on a cd and are due on the prescribed deadline. See page 11.

Establishing For and Against Committees RCW 29A.32.280

The jurisdiction is responsible for appointing committees to prepare statements for and against a ballot measure. Each committee shall consist of not more than three members; however, a committee may seek the advice of any person or persons. The For and Against Committee Member Form must be submitted by the deadline to appoint committees. (see page 8)

If such person are not immediately known, the jurisdiction should employ some formal means of notifying the public that members for the for and against committee are being sought.

Jurisdictions are responsible for providing committee members with copies of instructions, specifications, and deadlines for all statements.

The committees are solely responsible for submitting their argument statements in accordance with the specified time line for that election. (see page 11)

No titles for committee member names will be published in the pamphlet.

If an interested party comes forward, and it is past the jurisdiction's appointment deadline, the auditor shall, whenever possible, make the appointments on a first come, first served basis. The interested party must contact the Auditor in writing or email before the statement deadline and abide by the specified time lines for submitting statements for that election.

Bond and Levy Validation

Bond and Levy Validation State Constitution, Article VII, Section 2

Passing a levy or bond issue isn't always a simple matter of majority rules. State law makes bond issues and some types of levies tougher to pass by requiring a "super majority". Other levies such as levy lid lifts and school levies only require a simple majority.

Levy validation for schools

The passage of Engrossed House Joint Resolution 4204 in November of 2007 changed the constitutional requirement as it relates to school district levy elections. A school district levy requires a simple majority to pass. School bond issues still must validate and require a 60% majority to pass.

Bond validation

Bond issues must validate two ways. They must pass with a 60% favorable majority, meaning 60% of ballots cast are "Yes" votes. In addition, they have a voter turnout requirement. The turnout must equal 40% of the voters who cast a ballot in the last General Election. So, a bond measure could get the required number of YES votes, but could still fail if not enough people vote in the election.

Validation summary

Following the certification of the general election each year, Pierce County Elections will provide the jurisdictions a copy of the validation summary. The validation summary is also posted on the Pierce County Elections website.

The summary contains information compiled from the general election and includes the following statistics for each jurisdiction:

Active Voters: The total number of "Active Registered Voters" in the jurisdiction at the time of the election. "Active Registered Voters" refers to voters whose status is current with Pierce County Elections. These are voters who are not on the inactive list due to the return, as non-deliverable, of official documents such as a ballot or voter registration card.

Voted: The total number of voters voting in the last general election.

Bond: The **total number** of votes required to validate a bond issue.

Levy: The total number of **yes votes** required to validate a levy issue.
