Personal Views: Remember, if I can't move it, I won't approve it! I am Mike the Mover, and I approve the following message. First: Amnesty. As a person who opposes military occupation of Iraq/Afghanistan, I am prepared to offer pardons and asylum to all Washington State citizens serving under United States military combat conditions contrary to their enlistment or conscientious beliefs. As your Governor, I will lobby on your behalf for re-assignment, or honorary discharge. In the event you belong to the Washington State National Guard, I hope to see you complete your service here at home, as a member of Homeland Security. Second: Legislative Sessions. I propose alternating Legislative sessions, beginning in 2005 to be held at alternating fixed locations in Eastern Washington, namely Ellensburg (2005), Cheney (2007), and Pullman (2009). Our State colleges shall provide the venue. These sessions will allow for more Eastern Washington input, and allow our young college students a first hand experience to see how the state legislature is conducting itself. Other urgencies include health insurance premiums, alternative energy sources, social issues, foreign policies, environmental protection, and identifying the 'domestic enemy' living amongst us, just to name a few of my concerns.

PO Box 4429
Seattle, WA 98134
(206) 624-1152

Education: I received a Bachelor of Arts in Psychology from Central Washington University.

Occupation: Currently I serve as King County Executive, managing the second-largest government in the State of Washington and the 13th largest county in the nation.

Professional Qualifications: Prior to serving as Executive, I was on the King County Council where I focused on budget and service delivery during my tenure there. Before that, I served as a legislative aide to State Senator George Fleming and an investigator for the Federal Trade Commission.

Personal Information: My wife Cayan and I live in Seattle where we have raised our three sons.

Community Involvement: A long time community advocate, I have participated in a variety of organizations, including as a lay minister for Operation Nightwatch, a regular tutor for middle school kids, a football coach and much more.

Personal Views: I've made tough decisions and never settled for "good enough." We are a great state with great people but we have got to take on the challenges in our immediate future. This is why I believe we need comprehensive tax reform that provides for a fairer system, tax relief for the majority of Washington State residents and a stable revenue source for our schools.

Personal Views: My fellow citizens, The economic prosperity of a few years ago is gone - wrecked by the national recession, worsened by special interest politicians who are outsourcing jobs to India, instead of creating them here, in Washington. I am not one of those "career, out of touch" politicians from Olympia. I am and have been a Software Engineer for most of my adult life. I am also a single parent. Restoring the American Dream for Washingtonians means creating jobs! As Governor, I will: - Downsize government. Eliminate agencies that duplicate federal or local functions. - *Replace* the Sales Tax with a State Income Tax. Eliminate the Gas Tax. - Give tax incentives to companies that create and keep jobs in Washington. - Require all State agencies to "buy and employ American". - Spur investment in world class technology and computer based curriculum in our public schools. Require school uniforms for the K-12 students. - Make health care universally affordable by creating a State Insurance Corporation. - Introduce a tax on imported goods and outsourced jobs to pay for the security on our ports and borders. Always remember, the power to change Washington rests not in my hands, but in yours!

Personal Views: I am Scott Headland, Gubernatorial Candidate. Some issues need to be addressed in the near future, unemployment, transportation, Alaskan Way Viaduct, and the Monorail just to name a few. How is the state going to pay for these and other high dollar issues? My constituents claim this can be done by restructuring the current tax base by raising your taxes. My theory is to institute state owned and operated casinos that are strategically located with the proceeds going directly into the state's general fund. This will not only lower the unemployment rate and the state deficit but will increase the funding for schools, police and fire departments by means of the state lottery program in which it was intended. New criminal guidelines must be instituted. Minor law breakers should be given the option to be incarcerated or enlist into the armed forces. This has been done in the past with a good success rate. It will give these people a sense of self worth and instill structure and discipline into their lives, as well as, career opportunities and a chance to become productive members of our society. In closing, a vote for Scott Headland is a vote for the people.

Christine Gregoire
Democratic
PO Box 2771
Seattle, WA 98111
(206) 328-2969

Education: Bachelor of Arts, University of Washington; Juris Doctorate and Honorary Doctor of Law, Gonzaga University.

Occupation: Attorney General.

Professional Qualifications: As Attorney General, I manage the largest law office in this state. During my 12 years, the office has handled approximately 250,000 legal actions and brought in over \$4.5 billion in settlements for the state. In 1998, I lead the negotiations in the states' lawsuits against the tobacco industry, bringing billions of dollars to Washington. Before being elected Attorney General in 1992, I served as the Director of the Department of Ecology from 1988-1992. In that job, I negotiated the Tri-Party Agreement with the federal government for the safe cleanup and permanent storage of radioactive wastes at the Hanford Nuclear Reservation in Eastern Washington.

Personal Information: I grew up in Auburn, Washington. I have been married for 29 years to Mike Gregoire. Together, we have two terrific daughters.

Community Involvement: I am active in my church and have served on the following organizations: American Cancer Society Partnership Council; The Center for Women & Democracy; Girl Scouts of America; The Nature Conservancy; Washington Women Lawyers; YWCA.

Personal Views: As Governor, my priorities will be creating new jobs and strengthening our economy; protecting our families' health; and improving education.
