

## **ABOUT THIS MAP**

This fifth edition of the Pierce County Bike Map identifies existing facilities, both on and off-road. It is not intended to serve as a planning document and does not identify future projects. This bike map focuses on on-road facilities (e.g. roads with wide lanes, shoulders, and bicycle lanes) and paved shared-use paths. Bicyclists should refer to the "Bicycling Resources and Other References" section of this map for information about unpaved facilities.

**NOTICE TO BICYCLISTS:** This map and accompanying information is intended solely to assist bicyclists in their selection of facilities to ride throughout Pierce County. In providing this information, Pierce County does not designate these facilities as formal bikeways. Pierce County also does not assume liability for bicyclists who choose to travel upon any of the facilities shown on this map, nor does the County guarantee the stability, condition or fitness of any of the listed facilities for bicycling. Many of the facilities identified on this map cross and/or run on public roads that are exposed to daily wear and tear and degradation due to weather, motorized traffic and other environmental factors. Facilities may contain pavement imperfections, including ruts, cracks, and bumps. Riders may encounter expansion joints, debris, encroaching vegetation, stormwater inlets, and other natural, and manmade features. Riders should also remain alert for areas of visual impairment and other irregularities that may impact rider and motorist ability to see each other or potential road hazards. The chance that one may come into an area of visual impairment or a route irregularity warrants special care on the part of route users. This map includes facilities within multiple jurisdictions. Conditions and design elements may vary between jurisdictions.
