

TABLE OF CONTENTS

S.0	Draft Gig Harbor Basin Plan Executive Summary	S-1
S.1	Introduction and Purpose	S-1
S.2	Goals of the Gig Harbor Basin Plan.....	S-2
S.3	Description of Basin.....	S-2
S.4	Stakeholder and Public Involvement.....	S-3
S.5	Problems, Proposed Solutions and Prioritization Process.....	S-3
S.6	Recommended Actions	S-4
S.7	Implementation Strategy	S-6
1.0	INTRODUCTION	1-1
1.1	The Basin Planning Program.....	1-1
1.2	Goals and Objectives.....	1-3
1.3	The Gig Harbor Basin Plan	1-4
1.4	Report Organization	1-4
2.0	RELATED PROGRAMS AND REGULATIONS.....	2-1
2.1	Federal Water Management Policies and Regulations.....	2-1
2.2	State Water Management Policies and Regulations.....	2-2
2.3	Pierce County Water Management Policies and Regulations.....	2-4
2.4	Local Programs and Plans	2-4
3.0	STAKEHOLDER INVOLVEMENT	3-1
3.1	Phase 1.....	3-1
3.2	Phase 2.....	3-1
4.0	EXISTING CONDITIONS	4-1
4.1	Introduction	4-1
4.2	Physical Characteristics of Watershed	4-1
4.3	Biological Characteristics of Watershed	4-5
4.4	Socioeconomic Characteristics of Watershed	4-6
4.5	Characterization of Stream Corridors	4-7
4.6	Goodnough Creek	4-12
4.7	McCormick Creek.....	4-14
4.8	Nelyaly Creek.....	4-16
4.9	Rosedale Creek.....	4-17
4.10	Mark Dickson Creek	4-19
4.11	Warren Creek	4-21
4.12	Muri Creek	4-21
4.13	Artondale Creek	4-22
4.14	Wollochet Creek.....	4-24
4.15	Murphy Creek	4-26

TABLE OF CONTENTS

4.16	Sullivan Gulch Creek	4-27
4.17	Doc Weathers Creek.....	4-28
4.18	Donkey Creek.....	4-29
4.19	Crescent Creek	4-30
4.20	Results of Benthic Invertebrate Survey.....	4-33
5.0	IDENTIFICATION OF EXISTING PROBLEMS	5-1
5.1	Problem Definitions	5-1
5.2	Flooding	5-1
5.3	Water Quality Problems.....	5-2
5.4	Fish and Wildlife Habitat Degradation	5-4
5.5	Land Use and Stream Health.....	5-6
6.0	ANALYSIS OF FLOODING PROBLEMS	6-1
6.1	Introduction	6-1
6.2	Modeling Method.....	6-1
6.3	Prediction of Future Flooding	6-2
6.4	Causes.....	6-3
6.5	Conceptual Solutions.....	6-3
7.0	ANALYSIS WATER QUALITY PROBLEMS.....	7-1
7.1	Introduction	7-1
7.2	Pollutant Load Modeling.....	7-1
7.3	Future Water Quality Problems.....	7-2
7.4	Causes.....	7-3
7.5	Conceptual Solutions.....	7-3
8.0	ANALYSIS OF FISH AND WILDLIFE HABITAT DEGRADATION	8-1
8.1	Introduction	8-1
8.2	Future Degradation of Fish and Wildlife Habitat.....	8-1
8.3	Conceptual Solutions.....	8-3
9.0	DEVELOPMENT OF BASIN PLAN ALTERNATIVES.....	9-1
9.1	Introduction	9-1
9.2	Capital Improvements	9-1
9.3	Programmatic Improvements	9-6
10.0	BASIN PLAN	10-1
10.1	Recommended Capital Projects	10-1
10.2	Recommended Programmatic Changes	10-5

TABLE OF CONTENTS

10.3	Summary of Basin Plan Recommendations	10-7
10.4	Implementation of Basin Plan Recommendations	10-7
11.0	FINAL SUPPLEMENTAL ENVIRONMENTAL IMPACT STATEMENT	11-1

Appendices

Appendix A	Stream Assessment Guidelines from the Tri-County Urban Issues ESA Study – Evaluation of Baseline Habitat Conditions
Appendix B	Results of Stream Surveys
Appendix C	Stream Gauging Methods
Appendix D	Reported Flooding Problems in the Gig Harbor Basin
Appendix E	Flood Modeling Methods, Base Flow Comparison with Flood Flow
Appendix F	Load Modeling Methods
Appendix G	Summary of Capital Improvement Project Scores, Score Sheets for Capital Improvement Project Prioritization, Cost Estimates for Capital Improvement Projects
Appendix H	Detailed Description of and Cost Estimates for Recommended Programmatic Measures, Score Sheets for Programmatic Measures
Appendix I	Glossary of Terms Used

List of Tables
