

- WATER PROGRAMS -

For more information about Pierce County surface water management, call us at (253) 798-2725, or visit us on the web at www.piercecountywa.org/water

Water Programs deals with rainfall, water runoff, and drainage into rivers, streams, lakes and the Puget Sound (we don't supply drinking water). We work hard to reduce flooding and improve water quality for Pierce County residents and the environment, and no one knows what's happening where you live better than you. We want to hear your opinions and questions. *We really are listening.*
