People
Fish
Shellfish
Water Quality

Always use a fish-friendly car wash method.

Only Rain Down the Drain!

All storm drains lead to natural waterways. Stormwater flows to our streams, lakes, rivers, and Puget Sound with little or no treatment.

What should I do?

Use a fish-friendly car wash method:

- Take it to a commercial car wash where wastewater is sent to the sewer treatment plant.
- Wash it on your lawn where water can soak into the ground instead of flowing to a storm drain.
- Use a waterless car wash product that you spray on and wipe off without using water.

Planning a fundraising car wash?

We loan out free, easy-to-use, fish-friendly car wash kits to groups doing fundraising car washes. Visit our webpage for more information about checking out kits.
