

Clear / Clarks Creek Basin Plan

TABLE OF CONTENTS

<u>ITEM</u>	<u>PAGE</u>
CHAPTER 1: INTRODUCTION	
1.1 BASIN PLANNING PROGRAM	1 - 2
1.2 CLEAR / CLARKS CREEK BASIN PLAN	1 - 3
1.2.1 Study Area	1 - 3
1.2.2 Description of Subbasins	1 - 6
1.2.3 Key Elements of Basin Plan	1 - 6
1.3 STATEMENT OF PURPOSE	1 - 7
1.4 GOALS AND OBJECTIVES	1 - 7
Chapter 1: Table of Figures	
Figure 1 -1 Clear / Clarks Creek Basin & Vicinity	1 - 2
Figure 1 - 2 Study Area.....	1 - 4
Chapter 1: Tables	
Table 1 – 1 Goals and Objectives	1 - 8
CHAPTER 2: APPLICABLE PROGRAMS, POLICIES, AND REGULATIONS	
2.1 FEDERAL REGULATIONS, POLICIES AND PROCEDURES	2 - 1
2.1.1 Clean Water Act.....	2 - 1
2.1.2 Endangered Species Act	2 - 3
2.1.3 National Flood Insurance Program	2 - 4
2.1.4 Settlement Agreement with the Puyallup Tribe.....	2 - 6
2.2 STATE REGULATIONS, PLANS AND PERMITS	2 - 7
2.2.1 State Water Quality Standards	2 - 7
2.2.2 Aquifer and Wellhead Protection.....	2 - 8
2.2.3 The Growth Management Act and the Comprehensive Plan for Pierce County, Washington.....	2 - 8
2.2.4 Shoreline Management Act.....	2 - 9
2.2.5 State Hydraulic Code	2 - 10
2.2.6 The Nonpoint Rule.....	2 - 10
2.3 PIERCE COUNTY REGULATIONS, POLICIES AND PROGRAMS	2 - 11
2.3.1 Pierce County Storm Drainage and Surface Water Management Master Plan.....	2 - 11
2.3.2 Army Corps of Engineers General Investigation New Starts Program.....	2 - 11
2.3.3 Studies and Reports	2 - 12
Chapter 2: Tables	
Table 2-1 Federal and State Laws and Regulations	2 - 6
CHAPTER 3: STAKEHOLDER INVOLVEMENT	
3.1 STAKEHOLDERS AND RELATIONSHIP TO BASIN PLAN	3 - 1
3.1.1 Pierce County Planning and Land Services (PALS).....	3 - 2

3.1.2	Washington State Department of Ecology (ECOLOGY)	3 – 5
3.1.3	Washington State Department of Wildlife (WDFW)	3 – 6
3.1.4	Puyallup Tribe of Indians.....	3 – 6
3.1.5	Cities and Towns	3 – 9
3.1.6	Other Agencies or Groups	3 – 10
3.1.7	Citizens within the Clear / Clarks Creek Basin.....	3 – 12
3.2	ROLES AND RESPONSIBILITIES	3 - 13
3.2.1	Responsibility for Decision-Making.....	3 - 13
3.2.2	Communication.....	3 – 14
3.2.3	Public Involvement at Key Points.....	3 – 14

Chapter 3: Table of Figures

Figure 3.1	Basin Relationship to Community Planning Areas	3 – 4
Figure 3.2	Relationship of The Clear / Clarks Creek Basin To Local Governments.....	3 – 8
Figure 3.3	Communications with Public and Other Agencies.....	3 - 15

Chapter 3: Tables

Table 3-1	Areas of Local Government in the Clear/Clarks Creek Basin.....	3 - 9
-----------	--	-------

CHAPTER 4: CURRENT CONDITIONS

4.1	TOPOGRAPHY, SOILS, AND RAINFALL	4 - 1
4.1.1	Topography	4 – 1
4.1.2	Soils	4 – 5
4.1.3	Rainfall.....	4 – 6
4.2	LAND USE AND POPULATION	4 – 10
4.2.1	Land Use	4 – 10
4.2.2	Population	4 - 21
4.3	NATURAL AND CONSTRUCTED DRAINAGE.....	4 - 22
4.3.1	Drainage Overview	4 – 22
4.3.2	Natural Drainage Basin.....	4 – 24
4.3.3	Constructed Drainage System.....	4 – 33
4.3.4	Stream Flow Characteristics	4 – 39
4.3.5	Floodplains.....	4 – 48
4.3.6	Groundwater	4 - 52
4.4	AQUATIC AND RIPARIAN HABITAT	4 - 54
4.4.1	Historical Fish Presence.....	4 – 54
4.4.2	Stream Evaluation.....	4 – 58
4.4.3	Water Features Crucial To Fish Habitat	4 – 67
4.5	WETLAND HABITAT AND UPLANDS HABITAT.....	4 – 68
4.5.1	Wetland Habitat	4 – 68
4.5.2	Upland Habitat	
4.6	WATER QUALITY	4 – 73
4.6.1	Roosevelt Ditch Basin.....	4 – 76
4.6.2	Clear Creek Basin	4 – 78
4.6.3	Clarks Creek Basin	4 – 81
4.6.4	Potholes Basin.....	4 - 90

Chapter 4: Table of Figures

Figure 4.1 Topography..... 4 – 3
Figure 4.2 Soils Map..... 4 – 7
Figure 4.3 Average Monthly Rainfall at McMillan Reservoir..... 4 – 9
Figure 4.4 Historic Annual Precipitation at McMillan Reservoir..... 4 – 10
Figure 4.5 Existing Land Use 4 – 13
Figure 4.6 Zoning Map 4 – 15
Figure 4.7 Population Trends in Clear/Clarks Creek Basin..... 4 – 22
Figure 4.8 Natural and Constructed Drainage System..... 4 – 25
Figure 4.9 Stream Gauge and Water Quality Sampling Locations 4 – 41
Figure 4.10 Floodplain Map 4 – 49
Figure 4.11 Habitat Field Observations 4 – 55
Figure 4.12 Wetlands..... 4 – 68
Figure 4.13 Clarks Creek Microbial Source Tracking Results 4 – 82
Figure 4.14 Rody Creek Microbial Source Tracking Results 4 – 84
Figure 4.15 Diru Creek Microbial Source Tracking Results 4 – 85
Figure 4.16 Woodland Creek Microbial Source Tracking Results 4 – 87
Figure 4.17 Meeker Ditch Microbial Source Tracking Results 4 – 88

Chapter 4: Tables

Table 4-1 Existing and Future Land-Use Conditions EIA..... 4 – 20
Table 4-2 Drainage Inventory 4 – 33
Table 4-3 Drainage Facilities..... 4 – 34
Table 4-4 List of Active and Historical Stream Gauges 4 – 44
Table 4-5 Statistics of Monthly Mean Data for Water Years 1989 -1998 4 – 46
Table 4-6 Peak Discharge Frequency Relationships..... 4 – 48
Table 4-7 Summary Of 100- And 500- Year Floodplain 4 – 51
Table 4-8 Fish Species of Concern 4 – 58
Table 4-9 LWD Statistics per Stream 4 – 63
Table 4-10 Fish Passage Barrier Locations..... 4 – 63
Table 4-11 B-IBI Scores 4 – 65
Table 4-12 Summary of Number and Acreage of Wetlands..... 4 – 70
Table 4-13 2004 Assessment of Water Quality 4 – 74
Table 4-14 Average Water Quality Date and Geometric Mean for Fecal Coliform..... 4 - 76
Table 4-15 Water Quality Criteria for Freshwater Class A in the State of
Washington 4 – 77
Table 4-16 Clear Creek Sampling Summary 4 – 78
Table 4-17 Swan Creek Sampling Summary 4 – 79
Table 4-18 Clarks Creek Sampling Data 4 – 84
Table 4-19 Rody Creek Sampling Data 4 – 85
Table 4-20 Diru Creek Sampling Data 4 – 86
Table 4-21 Woodland Creek Sampling Data 4 - 87
Table 4-22 Meeker Ditch Sampling Data 4 - 88

CHAPTER 5: IDENTIFICATION OF PROBLEM.....	5 - 1
5.1 SOURCES USED FOR PROBLEM IDENTIFICATION.....	5 - 1
5.2 PROBLEM INVESTIGATION.....	5 - 2

Chapter 5: Table of Figures

Figure 5-1a Swan Creek Flooding, Riparian /Aquatic Habitat, Erosion, and Water Quality Problems	5 - 4
Figure 5-1b Squally Creek Flooding, Riparian /Aquatic Habitat, Erosion, and Water Quality Problems	5 - 6
Figure 5-1c Clear Creek Flooding, Riparian /Aquatic Habitat, Erosion, and Water Quality Problems	5 - 7
Figure 5-1d Canyon Creek Flooding, Riparian / Aquatic Habitat, Erosion and Water Quality Problems	5 - 9
Figure 5-2a Rody Creek Flooding, Riparian / Aquatic Habitat, Erosion and Water Quality Problems	5 - 11
Figure 5-2b Diru Creek Flooding, Riparian / Aquatic Habitat, Erosion and Water Quality Problems	5 - 12
Figure 5-2c Woodland Creek Flooding, Riparian / Aquatic Habitat, Erosion and Water Quality Problems.....	5 - 13

CHAPTER 6: STORMWATER DRAINAGE AND FLOODING ANALYSIS

6.1 FLOW MODELING AND ANALYSIS	6 - 1
6.1.1 Stream Flow.....	6 - 1
6.1.2 Hydraulic Analysis	6 - 10
6.2 EXISTING PROBLEMS	6 - 11
6.2.1 Flooding.....	6 - 11
6.2.2 1991 Storm Drainage and Surface Water Management Plan	6 - 12
6.2.3 Culverts and Channel Capacity.....	6 - 14
6.2.4 Stream Bank Erosion/Instability	6 - 16
6.2.5 Groundwater Recharge	6 - 17
6.3 FUTURE PROBLEMS.....	6 - 17
6.3.1 Flooding.....	6 - 17
6.3.2 Stream Bank Erosion/Instability	6 - 18
6.3.3 Groundwater Recharge	6 - 18
6.4 POTENTIAL SOLUTIONS	6 - 19
6.4.1 Problems Resolved or Not Addressed In the Basin Plan.....	6 - 20
6.4.2 Small Works Projects, Maintenance, and Enforcement Issues.....	6 - 25
6.4.3 Capital Improvement Program Projects.....	6 - 25
6.4.4 Potential Programmatic Measures	6 - 25
6.5 SITES REQUIRING MORE DETAILED DATA OR ANALYSIS	6 - 26

Chapter 6: Table of Figures

Figure 6.1	6 - 3
Figure 6.2 Hydraulic Modeling Locations.....	6 - 23

Chapter 6: Tables

Table 6-1 Existing and Future Flood Frequency	6 - 5
Table 6-2 Existing and Future Flow Duration	6 - 8
Table 6-3 Average Number of Hours per Year with Flow Duration Above 2-Year Peak Flow	6 - 9

Table 6-4 Frequency of Flooding at Undersized Roadway Culverts under Existing Land Use Conditions	6 – 15
Table 6-5 Frequency of Flooding in Storm Drain Systems under Existing Land Use Conditions	6 – 15
Table 6-6 Frequency of Flooding in Roadside Ditch and Culvert Systems under Existing Land Use Conditions	6 – 16
Table 6-7 Problem Locations with Increased Frequency of Flooding Under Future Land Use Conditions	6 – 18
Table 6-8 Resolved Drainage Issues.....	6 – 20
Table 6-9 Private Property Drainage Issues.....	6 – 21
Table 6-10 Drainage Issues Referred To Other Jurisdictions	6 – 22
Table 6-11 Small Works Drainage Issues Identified for Clear/Clarks Creek Subbasins	6 – 26
Table 6-12 Flooding and Drainage CIP Projects	6 - 30

CHAPTER 7: WATER QUALITY ANALYSIS

7.1	INTRODUCTION	7 - 1
7.2	WATER QUALITY PROBLEMS REVIEW	7 - 1
	7.2.1 Existing Stormwater Treatment Facilities.....	7 – 5
	7.2.2 Water Quality Facilities in Private Development	7 – 5
	7.2.3 Monitoring Data.....	7 - 5
	7.2.4 Temperature	7 – 5
	7.2.5 Dissolved Oxygen.....	7 – 5
	7.2.6 Nutrients.....	7 – 5
	7.2.7 Fecal Coliform	7 – 7
	7.2.8 Turbidity and Suspended Solids	7 – 7
	7.2.9 pH	7 – 8
	7.2.10 Sediment	7 – 8
	7.2.11 Excessive Growth of Invasive Aquatic Vegetation	7 – 9
7.3	WATERSHED ANALYSIS	7 – 9
	7.3.1 Watershed Treatment Model.....	7 – 9
	7.3.2 Model Development	7 – 10
	7.3.3 Model Results – Existing Loads	7 – 10
	7.3.4 ANALYSIS OF THE RESULTS.....	7 – 12
7.4	FUTURE CONDITIONS	7 - 14
	7.4.1 Upcoming Projects.....	7 - 14
	7.4.2 Future Land Use.....	7 - 15
7.5	PROGRAMMATIC RECOMMENDATIONS	7 – 16
	7.5.1 Water Quality Monitoring Plan	7 – 16
	7.5.2 Adopt Updated Stormwater Management Standards.....	7 - 17
	7.5.3 Invasive Species Management Program	7 - 17
	7.5.4 Floodplain/Riparian Corridor Land Management.....	7 – 17
	7.5.5 Stormwater Structure Retrofits	7 – 18
	7.5.6 Street Sweeping	7 – 18
	7.5.7 Education Programs	7 – 19
	7.5.8 Structural Stormwater Management Practices.....	7 - 21
7.6	SITE-SPECIFIC WATER QUALITY RECOMMENDATIONS	7 – 21
	7.6.1 Roosevelt Ditch Drainage Area	7 - 21

Chapter 7: Tables

Table 7-1 Water Quality Problems 7 – 2
Table 7-2 Predicted Existing Loads for Clear Creek and Clarks Creek Basins from Watershed
Treatment Model..... 7 - 11
Table 7-3 Comparison of Date with Results of the Watershed Treatment Model 7 – 12
Table 7-4 Predicted Load Reduction Benefits Of Future Management Practices
Clear Creek Basin 7 – 13
Table 7-5 Predicted Load Reduction Benefits Of Future Management Practices
Clarks Creek Basin 7 – 14

CHAPTER 8: STREAM HABITAT AND RIPARIAN AREAS ANALYSIS

8.1 SUMMARY OF AQUATIC HABITAT FIELD INVESTIGATION 8 - 1
8.2 LIMITING FACTORS 8 - 3
8.3 EXISTING AQUATIC HABITAT PROBLEMS..... 8 – 5
8.3.1 Fish Passage Barriers 8 – 5
8.3.2 Altered Stream Flows 8 – 6
8.3.3 Riparian Corridors 8 – 8
8.3.4 Instream Habitat..... 8 – 9
8.3.5 Stream Bank Erosion & Instability 8 – 10
8.3.6 Channel Morphology 8 - 12
8.4 FUTURE HABITAT CONDITIONS 8 – 13
8.4.1 Fish Passage Barriers 8 – 13
8.4.2 Stream Flows and Stream Bank Erosion 8 – 13
8.4.3 Riparian, Instream Habitat and Channel Morphology 8 - 14
8.5 POTENTIAL SOLUTIONS 8 – 14
8.5.1 Special Considerations in Solution Development..... 8 – 15
8.5.2 Problems Resolved or Not Addressed in the Basin 8 – 15
8.5.3 Small Works Projects, Maintenance, and Enforcement Issues 8 – 17
8.5.4 Capital Improvement Program Projects 8 – 17
8.5.5 Problems Requiring More Detailed Data or Analysis 8 – 20

Chapter 8: Table of Figures

FIGURE 8.1 Average Monthly Flow at Swan Creek 8 – 7
FIGURE 8.2 B-IBI Scores and EIA 8 - 10

Chapter 8: Tables

Table 8-1 USBEM Phase II Habitat Condition Assessment..... 8 – 2
Table 8-2 Limiting Factors 8 – 4
Table 8-3 “Level B” Fish Passage Barrier Analysis 8 – 6
Table 8-4 Resolved Aquatic Habitat Issues 8 – 16
Table 8-5 Aquatic Habitat Issues Referred to Other Parties 10 – 16
Table 8-6 Aquatic Habitat CIP Projects..... 10 - 18

CHAPTER 9: BASIN PLAN

9.1 SUMMARY OF PLAN RECOMMENDATIONS 9 – 1
9.1.1 Capital Improvement Projects..... 9 – 8
9.1.2 Programmatic Measures..... 9 – 9
9.1.3 Additional Studies..... 9 – 10
9.1.4 Implementation Strategy 9 - 10

9.2 PLAN APPROACH TO BASIN NEEDS.....	9 – 48
9.2.1 Preference for Non-Structural Solutions.....	9 – 11
9.2.2 Low Impact Development.....	9 - 11
9.2.3 Economic Development.....	9 – 12
9.2.4 Critical Areas Conservation.....	9 – 13
9.2.5 Public Involvement and Education	9 – 13
9.2.6 Compliance with Storm Drainage and Flood Hazard Regulations	9 – 13
9.2.7 Drainage and Flood Hazard Management	9 – 14
9.2.8 Water Quality.....	9 – 16
9.2.9 Aquatic (Floodplain) Habitat Protection.....	9 - 17
9.3 SPECIFIC RECOMMENDATIONS.....	9 – 17
9.3.1 Project Identification Codes.....	9 – 18
9.3.2 Capital Improvements.....	9 – 19
9.3.3 Programmatic Measures.....	9 – 69
9.4 IMPLEMENTATION.....	9 – 82
9.4.1 Capital Facilities Element of Pierce County Comprehensive Plan.....	9 – 82
9.4.2 Annual Budget for Pierce County Water Programs.....	9 – 82
9.4.3 Order of Implementation.....	9 – 82
9.4.4 Economic Development Criteria.....	9 – 82
9.4.5 Voluntary Actions By Other Interested Parties.....	9 – 83

Chapter 9: Table of Figures

Figure 9.1 Squally Creek Recommended CIP	9 – 29
Figure 9.2 Clarks Creed Basin CIP Projects	9 – 49
Figure 9.3 Potholes Basin CIP Projects	9 – 67
Figure 9.4 Recommendations for Monitoring and Additional Studies	9 - 80

Chapter 9: Tables

Table 9.1 Estimated Costs of Plan Recommendations	10 – 2
Table 9.2 High Priority Recommended Projects	9 – 3
Table 9.3 Medium-Priority Recommended Projects.....	9 – 5
Table 9.4 Low-Priority Recommended Projects.....	9 – 7
Table 9.5 Summary of CIP Projects	9 – 8
Table 9.6 Roosevelt Ditch.....	9 – 19
Table 9.7 Swan Creek.....	9 – 22
Table 9.8 Squally Creek.....	9 – 29
Table 9.9 Clear Creek	9 – 30
Table 9.10 Canyon Creek	9 – 37
Table 9.11 Rody Creek	9 – 12
Table 9.12 Diru Creek.....	9 – 51
Table 9.13 Woodland Creek	9 – 54
Table 9.14 Clarks Creek	9 – 58
Table 9.15 Potholes.....	9 – 62
Table 9.16 Recommended Programmatic Measures by Priority	9 – 69
Table 9.17 Recommended Flow and Water Quality Monitoring.....	9 – 77
Table 9.18 Recommended Studies to Fill Information Gaps.....	9 – 80

CHAPTER 10: SUPPLEMENTAL ENVIRONMENTAL STATEMENT

FACT SHEET 10 - i

10.1 SUMMARY 10 - 1

 10.1.1 DSEIS Supplements 1991, Non-Project and Phased Environmental
 Review 10 - 4

 10.1.2 Format DSEIS 10 - 4

 10.1.3 Summary of Impacts 10 - 5

10.2 ALTERNATIVES, INCLUDING THE PROPOSED ACTION 10 - 10

 10.2.1 Introduction 10 - 10

 10.2.2 Background SWM Plan (1991) 10 - 10

 10.2.3 Use of the 1991 Plan as Principal Focus of CIP has Evolved 10 - 13

 10.2.4 Proposed Action 10 - 14

 10.2.5 No Action Alternative 10 - 15

10.3 AFFECTED ENVIRONMENT, SIGNIFICANT IMPACTS, AND MITIGATION
MEASURES 10 - 17

 10.3.1 Water Resources 10 - 17

 10.3.2 Water Quality 10 - 18

 10.3.3 Other Agencies Conducting Water Resource Enhancement
 Projects 10 - 19

 10.3.4 Fishery Resources 10 - 21

 10.3.5 Plants and Animals 10 - 23

 10.3.6 Soils 10 - 25

 10.3.7 Land and Shoreline Use 10 - 27

 10.3.8 Aesthetic, Historic and Cultural Resources 10 - 30

 10.3.9 Public Services and Utilities 10 - 31

Chapter 10: Tables

Table 10-1 Summary Comparison of Impacts 10 - 6

Table 10.2 Goals of Pierce County Storm Drainage and SWM Plan 10 - 11

Table 10-3 Original High Priority CIP Projects 10 - 16
