

Nisqually River Basin Characterization Report Phase I

TABLE OF CONTENTS

<u>ITEM</u>	<u>PAGE</u>
ACRONYMS	A-1
EXECUTIVE SUMMARY	E-1
Drainage/Flooding Problems	E-3
Water Quality Problems.....	E-4
Aquatic Habitat Problems.....	E-5
Executive Summary: Figures	
Figure E-1 Pierce County Basins Included in the Nisqually Basin Plan	E-2
CHAPTER 1: INTRODUCTION	
1.1 BASIN PLANNING PROGRAM	1-1
1.2 PLANNING AREA	1-4
1.2.1 Key Elements of Basin Plan	1-4
1.3 STATEMENT OF PURPOSE	1-7
1.4 PLAN GOALS AND OBJECTIVE.....	1-7
Chapter 1: Figures	
Figure 1-1 Pierce County Basins Included in the Nisqually Basin Plan	1-3
Figure 1-2 Nisqually River Basin Planning Area.....	1-5
Figure 1-3 Nisqually River Basin Planning Area and Vicinity	1-6
Chapter 1: Tables	
Table 1-1 Goals and Objectives of the Nisqually River Basin Plan	1-8
CHAPTER 2: APPLICABLE PROGRAMS, POLICIES, AND REGULATIONS	
2.1 FEDERAL REGULATIONS, POLICIES AND PROGRAMS	2-1
2.1.1 Clean Water Act.....	2-1
2.1.2 National Flood Insurance Program	2-4
2.1.3 Endangered Species Act	2-6

2.2	STATE REGULATIONS, PLANS, AND PERMITS	2-7
2.2.1	State Water Quality Standards	2-7
2.2.2	Section 401 Water Quality Certification.....	2-8
2.2.3	Puget Sound Water Quality Management Plan	2-8
2.2.4	The Growth Management Act and the Comprehensive Plan for Pierce County, Washington.....	2-9
2.2.5	State Hydraulic Code	2-10
2.2.6	1998 Watershed Management Act.....	2-11
2.2.7	Substitute House Bill 323	2-11
2.2.8	Archaeological and Cultural Coordination	2-12
2.2.9	Forest Practices Act	2-13
2.3	PIERCE COUNTY REGULATIONS	2-14
2.3.1	Critical Areas Ordinances	2-14
2.3.2	Land Use and Zoning Designations and Development Regulations	2-14
2.3.3	Pierce County Shoreline Master Program.....	2-15
2.3.4	Pierce County SEPA Regulations.....	2-16
2.4	SUMMARY OF KEY REGULATIONS AND PROGRAMS	2-16
2.5	COUNTY LAND USE POLICIES.....	2-19
2-6	PIERCE COUNTY BASIN PLANNING PROGRAM.....	2-21

Chapter 2: Tables

Table 2-1	Federal, State, and County Regulations and Programs Relevant to the Nisqually Basin Plan.....	2-17
-----------	--	------

CHAPTER 3: STAKEHOLDER INVOLVEMENT

3.1	IMPORTANCE OF STAKEHOLDER INVOLVEMENT	3-1
3.2	STAKEHOLDER INVOLVEMENT FOR NISQUALLY BASIN PLAN	3-2
3.2.1	Pierce County Water Programs.....	3-3
3.2.2	Nisqually Tribe	3-3
3.2.3	Federal Entities	3-4
3.2.4	State Agencies.....	3-7
3.2.5	Pierce County Agencies.....	3-8
3.2.6	Other Municipalities	3-10
3.2.7	Other Entities	3-12
3.2.8	Citizens within the Nisqually River Basin.....	3-13

Chapter 3: Figures

Figure 3-1	Nisqually River Basin and Vicinity	3-5
------------	--	-----

CHAPTER 4: CURRENT AND FUTURE CONDITIONS

4.1	LAND USE AND POPULATION	4-1
4.1.1	Land Use	4-1
4.1.2	Population	4-6
4.2	TOPOGRAPHY, SOILS, AND RAINFALL	4-9
4.2.1	Topography and Geography	4-9
4.2.2	Soils.....	4-12
4.2.3	Rainfall.....	4-15
4.3	NATURAL AND CONSTRUCTED DRAINAGE.....	4-17
4.3.1	Drainage Overview	4-17
4.3.2	Natural Drainage Systems.....	4-20
4.3.3	Constructed Drainage Systems	4-35
4.3.4	Stream Flow	4-38
4.3.5	Flood Hazard Areas	4-45
4.3.6	Groundwater	4-47
4.3.7	Impervious Surface Analysis	4-52
4.3.8	Deforestation Surface Analysis.....	4-53
4.4	AQUATIC AND RIPARIAN HABITAT	4-55
4.4.1	Nisqually River and Estuary	4-64
4.4.2	Red Salmon Creek	4-81
4.4.3	Brighton Creek and Horn Creek	4-83
4.4.4	Murray Creek.....	4-86
4.4.5	Tanwax Creek.....	4-88
4.4.6	Kreger Creek.....	4-92
4.4.7	Ohop Creek.....	4-94
4.4.8	Mashel River.....	4-98
4.5	WETLANDS AND UPLAND HABITAT	4-101
4.5.1	Wetland Habitat	4-101
4.5.2	Near-shore Habitat.....	4-102
4.5.3	Upland Habitat	4-102
4.6	WATER QUALITY.....	4-104
4.6.1	Murray Creek.....	4-108
4.6.2	Red Salmon Creek	4-108
4.6.3	Clear Creek and Horn Creek.....	4-108
4.6.4	Tanwax Creek.....	4-108
4.6.5	Kreger Creek.....	4-108
4.6.6	Ohop Creek.....	4-110
4.6.7	Ohop Lake.....	4-110
4.6.8	Twenty-five Mile Creek.....	4-110
4.6.9	Mashel River.....	4-110
4.6.10	Busy Wild Creek and Beaver Creek	4-111
4.6.11	Upper Nisqually River	4-111
4.6.12	Nisqually Reach.....	4-111

4-7	HAZARD AREAS.....	4-111
4.7.1	Earthquake Hazard Areas	4-111
4.7.2	Landslide Hazard Areas.....	4-114
4.7.3	Volcanic Hazard Areas	4-114

Chapter 4: Figures

Figure 4-1	Existing Land Use.....	4-2
Figure 4-2	Land Use and Zoning.....	4-5
Figure 4-3	Planning Area Population Distribution.....	4-8
Figure 4-4	Topography of the Nisqually River Watershed	4-10
Figure 4-5	Surficial Geology Nisqually River Basin	4-11
Figure 4-6	Hydrologic Soil Groups Nisqually River Basin.....	4-14
Figure 4-7	Mean Annual Precipitation Nisqually River Basin.....	4-16
Figure 4-8	Planning Area Subbasins	4-18
Figure 4-9	Nisqually Mainstem Features	4-29
Figure 4-10	Constructed Drainage System in Planning Area.....	4-37
Figure 4-11	Streamflow Gauging Sites	4-40
Figure 4-12	Period of Record for USGS Stream Gauges	4-41
Figure 4-13	Mean Monthly Stream Flow for USGS Gauges on Nisqually River.....	4-44
Figure 4-14	Mean Monthly Stream Flow for USGS Gauges on Tributaries.....	4-44
Figure 4-15	Flood Hazard Areas in the Nisqually Watershed.....	4-48
Figure 4-16	Stream Survey Reaches.....	4-57
Figure 4-17	Known Fish Distribution - Chinook	4-65
Figure 4-18	Known Fish Distribution - Chum	4-66
Figure 4-19	Known Fish Distribution - Pink.....	4-67
Figure 4-20	Known Fish Distribution - Coho.....	4-68
Figure 4-21	Known Fish Distribution - Sockeye.....	4-69
Figure 4-22	Known Fish Distribution - Steelhead.....	4-70
Figure 4-23	Known Fish Distribution - Cutthroat	4-71
Figure 4-24	Average Monthly Flows in Upper and Lower Nisqually River.....	4-76
Figure 4-25	Average Peak Flow by Month in Upper and Lower Nisqually River....	4-77
Figure 4-26	Planning Area Wetlands	4-103
Figure 4-27	303(d) Listed Water Bodies	4-109
Figure 4-28	Cascadia Earthquake Sources, USGS, 2002	4-112
Figure 4-29	Seismic Hazards.....	4-113
Figure 4-30	Landslide Hazards.....	4-115
Figure 4-31	Volcanic Hazards	4-116

Chapter 4: Tables

Table 4-1	Descriptions of Hydrologic Soil Group Properties.....	4-13
Table 4-2	Subbasin Areas.....	4-19
Table 4-3	Nisqually River Project Dam Characteristics	4-32
Table 4-4	Nisqually River Project Instream Flow Requirements	4-33
Table 4-5	Alder Lake Minimum Water Level Elevations.....	4-34

Table 4-6	Maximum Conservation Release from LaGrande Dam and Powerhouse	4-34
Table 4-7	Nisqually River Project Allowable Ramping Rates.....	4-35
Table 4-8	Pierce County Drainage Inventory Summary	4-38
Table 4-9	USGS Stream Gauges in the Planning Area	4-39
Table 4-10	Degree of Regulation Affecting USGS Stream Gauges	4-42
Table 4-11	Peak Discharge Frequency Estimates from Flood Insurance Study	4-45
Table 4-12	Effective Impervious Areas for Existing and Future Land Use Conditions	4-53
Table 4-13	Estimated Loss of Forested Area	4-54
Table 4-14	Estimated Decrease in Forested Area	4-55
Table 4-15	Stream Surveys Completed by Stream Reach	4-58
Table 4-16	References Used for Stream Characterization	4-61
Table 4-17	Wetland Areas by Subbasin	4-104
Table 4-18	Nisqually Mainstem Water Quality Summary.....	4-105
Table 4-19	“Waters of Concern” in the Nisqually Basin Planning Area	4-107
Table 4-20	303(d) Listed Waters in Planning Area	4-107

CHAPTER 5: IDENTIFICATION OF PROBLEMS

5.1	IDENTIFICATION OF POTENTIAL PROBLEMS	5-1
5.2	INVESTIGATION OF POTENTIAL PROBLEMS	5-3
5.2.1	Problem Locations	5-3
5.2.2	Field Investigation	5-4
5.2.3	Database Development	5-4
5.3	IDENTIFIED PROBLEMS	5-5
5.3.1	Flooding and Drainage Problems.....	5-5
5.3.2	Water Quality Problems.....	5-14
5.3.3	Fish Habitat Problems.....	5-19
5.3.4	Specific Problems	5-29

Chapter 5: Figures

Figure 5-1	Problem Types from Questionnaire	5-1
Figure 5-2	McKenna Area Flooding in February 1996.....	5-6
Figure 5-3	Problem Locations – Red Salmon Creek Subbasin	5-30
Figure 5-4	Problem Locations – Murray Creek Subbasin	5-31
Figure 5-5	Problem Locations – Brighton Creek and Horn Creek Subbasins.....	5-32
Figure 5-6	Problem Locations – Lower Tanwax Creek, Harts Lake, Kreger Creek Subbasins	5-33
Figure 5-7	Problem Locations – Upper Tanwax Creek and Clear Lake Subbasins	5-34
Figure 5-8	Problem Locations – Upper Ohop Creek and Lynch Creek Subbasins	5-35
Figure 5-9	Problem Locations – Lower Ohop, Lower Mashel, Mashel Prairie, LaGrand Subbasins	5-36
Figure 5-10	Problem Locations – Little Mashel River and Alder Lake Subbasins.....	5-37

Figure 5-11 Problem Locations – Middle Mashel and Upper Mashel River Subbasins 5-38

Figure 5-12 Problem Locations – Elebe Creek, Ashford, Copper Creek and Goat Tenas Creek Subbasins..... 5-39

Figure 5-13 Problem Locations – Nisqually River (Mainstem) 5-40

Chapter 5: Tables

Table 5-1 Flood Hazard Inundation Areas of Subbasins 5-9

Table 5-2 Numbers of Structures within the 1-Percent Annual Chance Flood Inundation Area 5-11

Table 5-3 Numbers of Structures within the 0.2-Percent Annual Chance Flood Inundation Area 5-12

Table 5-4 Flooding and Drainage Problem Summary..... 5-41

Table 5-5 Water Quality Problem Summary..... 5-51

Table 5-6 Fish Passage Barriers 5-58

Table 5-7 Aquatic / Riparian Habitat Problem Summary 5-59

CHAPTER 6: REFERENCES
