

Pierce County Planning and Public Works-Sewer Division

About the Convenience Charge for Online Payment

Pierce County was asked by many of our sewer customers to provide an option for paying sewer bills with a credit card. As a convenience to customers who wish to use this method, we made this option available on our website in January 2011.

Credit card companies charge merchants, in this case Pierce County, a percentage of each transaction. This charge is passed on to our customers as part of the convenience fee.

We will continue to review our process and if there is an opportunity in the future to reduce convenience fees to customers at no cost to the County, we will do so.
