

**PC EMS COUNCIL
PROTOCOL REVIEW COMMITTEE MINUTES
March 30, 2016**

Attendance:

Membership Attendance Roster on File.

Call to Order

Cynde Rivers called the meeting to order at 8:00am. Introductions were made and previous meeting minutes were provided, voted on and accepted as written.

Unfinished Business:

A. Trauma – (continued)

Unfinished because we are waiting on burn section.

***** Need to finalize burn patient transport to Harborview (section II.8) *****.

B. Pain Management – Chris Barnard

Initially said it was done as of last meeting, but decided to take another look at it. In the General section, changed the pain scale from 1-10 to 0-10, allowing patients the option of no pain.

In the Medication Administration, under A. Adult, Todd suggested specifying dosing increments so it's not limited. Discussion followed. Russ clarified that it has to do with billing charges per dose. Fentanyl was changed to 50mcg to 100mcg.

Pediatric section is okay. Moved the first sentence that was misplaced.

***** PAIN MANAGEMENT IS DONE*****

New Business:

A. Transport Policy: II.C. 'Patient Preference'

There was no discussion on this subject.

B. Cardiac – Jeff Moore

***** CARDIAC IS DONE***** We will do a last review in the afternoon session to finalize.

The aspirin dose was changed from 325mg to 324mg to reflect use of four 81mg tablets.

Section IV. C. regarding termination of resuscitation, discussion addressed where this section fits.

Question: are we removing it from this section or leaving it here? Decision was made to move 1.

And 2. under A. and wait on Termination of Resuscitation section to be written.

C. OB – Art Vazquez

Norma raised the question about pain meds given to women in labor. Decision was to leave as is.

***** OB WAS REVIEWED AND IS DONE AS OF 3/30/2016*****

D. Termination of Resuscitation – Chris Barnard, was reviewed.

B.1. the word "can" was replaced with "may."

IV. E. There was discussion on the terminology of near-drowning vs. drowning. EXCEPTION: Reworded the sentence to say. "Consider resuscitation...." and included, "Consult with Base Station."
