

QUESTIONS AND ANSWERS

MERIDIAN HABITAT PARK & COMMUNITY CENTER SCULPTURAL PROJECT

RFP No. 1921

CONTACT: PIERCE COUNTY PROCUREMENT & CONTRACT SERVICES

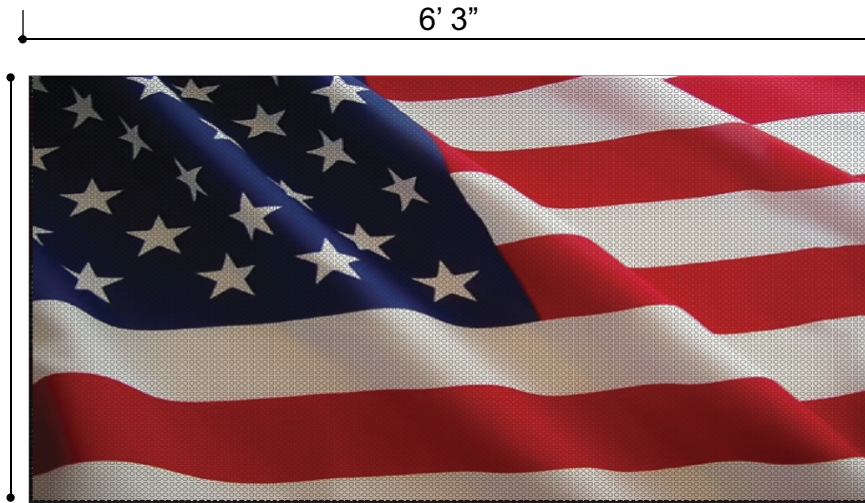

DATE OF ISSUE QUESTION AND ANSWER: **Tuesday, August 08, 2017**

Question #	VENDOR QUESTIONS	COUNTY RESPONSES	Response Issued - Date
1	Will you provide the electronic reader board or do we need to incorporate that expense into the project budget? Also, I saw a reference to a "Reader Board attachment" in the RFP, but I did not find the attachment. Could you send me a copy of that? Or point me in the right direction to find it online?	Pierce County will provide and install the electronic reader board after the artist's installation is complete. See attached (Attachment A) - Reader Board Basis of Design. It should be noted to proposers that the attachment is just a basis of design.	8/8/2017
2	Curious if this artist call is open to artist from across the country?	As long as the project can be accomplished per the scope of services being requested, proposals are not limited to this County or State.	8/8/2017
3	When the request for proposals states "complete design for the artwork" is it intending for us to create shop drawing level designs, as part of the proposal phase?	Yes, that is the intent. See further clarification under Question No. 5.	8/8/2017
4	Is there a submission fee (free) for this project?	No.	8/8/2017
5	On the requirements for submittal section. 4. Completed design for the artwork. Is this asking for fully fleshed out designs already done prior to submittal and being awarded the contract?	A drawing of the design, materials, size etc. is what we are looking for. Not the final work up. Enough detail for the Committee to determine the look of the art work.	8/8/2017
6	Regarding the Subcontractors Participation form... Is this assuming you have already lined up all your subs? Typically, we would get bids from several subs to meet the budget and schedule and those might change.	The subcontractor's participation form may be turned in later, when signing the contract, or later if subcontractors are added during the contract timeframe.	8/8/2017

Physical Dimensions

LED Signs: 20MM 48x96 matrix
 Physical Size: 3' 2" H x 6' 3" W
 LED Color: Full Color RGB

20.05 square feet

Drawing No:
123177-5

File Name
Pierce County Parks & Rec

Date:
4/30/14

Revision:
4

LED Sign Specifications

- Display Data Processing.....16 bit
- Color Processing.....24 bits, 16.7 million
- Color Palette.....281 trillion colors
- Viewability.....140 degrees horizontal
- Graphic Capability.....Text, animations & video
- Control Software.....ViViD software suite
- Display Dimming.....100 levels
- Video Frame Rate.....30 frames per second
- Cabinet Construction.....Extruded aluminum (corrosion resistant)
- Weatherproofing (Front/Rear).....IP65 / IP54
- Manufacturing Quality Standard.....ISO 9001
- UL Listed.....ETL / UL48
- Product Warranty.....5 year parts & factory labor

LED Sign Warranty

5 year manufacturer's

Unlimited lifetime training and technical support

Approval: _____

Print Name: _____

Date: _____
