

**PC EMS COUNCIL
CQI COMMITTEE MINUTES
July 26, 2017**

Attendance:

Membership Attendance Roster on File.

Call to Order

Meeting was called to order by Calvin Johnson at 11:12 am. Introductions were made around the room. Minutes of previous meeting were provided, approved and accepted as written.

Unfinished Business:

A. Standing Updates (Stroke Update will be in September)

- **Cardiac Update**

Susan Eardley introduced Jim Johnson, a data extractor from CHI Franciscan, who is new to the EMS meetings. He presented STEMI Data for April-June: 8 at St. Anthony; 27 at St. Jo's. Russ commented that only about 2/3 were activated by EMS which seems low.

Julie Langer provided first quarter data from TG and Good Sam covering Mode of Arrival (POV or EMS), EMS Arrival (Field Activations), and Accuracy of Field Activations. She also provided COAP data (Clinical Outcome Access Data) in charts and graphs. She asked if this data is valuable and what do you consider valuable? Bill said it would be good to get information on when EMS was not activated. Russ asked about having data regarding POV use instead of using EMS.

B. Base Station Contact on PCR - ~~Karrie O'Brien~~ not present

- **Jeff Moore-EPFR Review**

Jeff presented a PowerPoint of 2017 Code Neuro Data for EPFR. He talked about how quickly they are getting their code neuro's activated and the rate of documentation, which is 100% in the first half of the year. They responded to 23 cases and saw improvement of a couple of minutes over 2016. He attributed this to additional training.

New Business:

None.

Presentation:

PCFD#23 has not prepared a presentation for today.

Unscheduled Business:

None

Announcements:

PCFD#23 is scheduled to present at our next meeting, September 27.
