Random Check of Ballots

On April 24, 2018 the political party observer coordinators requested a random audit of ballots per RCW 29A.60.170(4). They requested a manual count of ballots cast for the Peninsula School District Special Election - Proposition No. 1. Our system uses five digital scanners and one central count server. A random batch from each scanner used in the election (3) was drawn, hand tallied, and compared to the machine report. All results of the hand tally for the chosen race matched the machine report.
