

**PC EMS COUNCIL  
PROTOCOL REVIEW COMMITTEE MINUTES  
March 27, 2019 – 8:00**

**Attendance:**

Membership Attendance Roster on File.

**Call to Order**

The meeting was called to order at 8:00 am. By Sam Yount. Introductions were made around the room. Previous meeting minutes were provided, voted on and accepted as written.

**Unfinished Business:**

**A. Mobile Application Progress-**

Dan Beckman stated that a man at the conference said he'll be reaching out regarding a set price for unlimited users. He will negotiate a price comparable to what people are paying now. Dr. Waffle asked for the name of the rep.

**B. MOPEDS Cards-~~Dr Friedrich~~ –**

Joe Bouchard announced that they are pretty much finished and were sent to Dr. Waffle. Dr. Waffle wanted to make a few minor changes on medication concentration because there are differences between agencies and rigs.

\*\*\*\*\*Keep this in unfinished business\*\*\*\*\*

**C. Spinal Restriction-Quick Review- Dr. Gerecht-**

From our last meeting we talked about revising that protocol. It was sent out to the agencies asking for feedback, but he hasn't heard anything yet.

Dr. Waffle said the only issue is training for hospital staff receiving patients who aren't on a backboard. It is primarily a concern of awareness.

Dr. Gerecht said that St. Joseph was sent information, but Karmela responded that she didn't receive it.

Dr. Waffle asked when we should begin this as an official protocol. Discussion ensued. It was suggested that April 15 be the start date, and this was agreed upon. Dr. Waffle will send out a memo regarding this new protocol.

**New Business:**

Tim Lookabaugh said he sent in some protocol clean-up on inconsistencies between sections and appendices.

Sam Yount talked about putting all dosing in the Appendices.

Dr. Waffle said he needs a guarantee from each agency that their personnel have been trained in the new protocols, so that everyone has the new knowledge at the same time.

Sam asked if we could do the spinal immobilization change at the same time.

There was also discussion on BEFAST being added to new protocol training.

June 1<sup>st</sup> is the deadline to have completed training on BEFAST and Sepsis

Dr. Waffle added that we need to negotiate the price on the protocol application, so we can go forward with the electronic protocols.

**Unscheduled Business:**

None

**Announcements:**

Dr. Ferrer said from the site survey, PCEMS was called out for excellent service.

**Adjournment:**

Meeting Adjourned @ 8:30 am.
